

Thematic Session 32

General Session

Ö. Işık Ece

İstanbul Technical University, Department of Geological Engineering, 34469, Maslak, İstanbul, Turkey
ece@itu.edu.tr

Hatice Ünal Ercan

Konya Technical University, Department of Chemical and Chemical Processing Technologies, Selçuklu, Konya, Turkey
hunalercan@ktun.edu.tr

Paul A. Schroeder

University of Georgia, Department of Geology, Athens, GA 30602-2501 USA
schroe@uga.edu

This session invites contributions related to general clay science. This is not a plenary session. We recognize that many excellent studies are appropriate for presentation, however they may not fit into the specialized thematic sessions. We cast a broad net to catch the novel and unique advances that often appear at International Clay Conferences.

Keywords: Diagenesis, Hydrothermal Alteration, Rock Weathering, Genesis of Clays, Soil Mineralogy.

Potential Journals: Clay Minerals, Clays and Clay Minerals, Journal of Volcanology and Geothermal Research, Journal of Sedimentary Research, Applied Geochemistry, Journal of Geochemical Exploration.
